SEO Basics

STRENGTHS

Frontend Development
Experienced in designing and implementing responsive web applications with expertise in HTML, CSS, JavaScript.

UI/UX Transition
Skilled in translating UI/UX designs into high-quality code for exceptional user experiences.

Collaborative Teamwork
Strong collaborative abilities, working effectively in cross-functional teams to deliver projects on time.

Performance Optimization
Proficient in optimizing application performance for exceptional user experience with frameworks like Angular.

PROFILE

Experienced Frontend Developer with over 3+ years of expertise in designing and implementing responsive web applications. Proficient in HTML, CSS, JavaScript, and various frontend frameworks such Angular. Skilled in translating UI/UX designs into high-quality code and optimizing application performance for exceptional user experiences. Strong collaborative abilities, working effectively in cross-functional teams to deliver projects on time and within scope.

WORK EXPERIENCE

Software Developer

Sererra   Sept 2024 - Present
Project - Repair Sales

- Developed and maintained web applications using Angular, ensuring optimal performance and user experience.

- Managed client-reported issues through the RPS portal by analyzing and resolving queries raised via job cards.

- Debugged and resolved code issues, implementing updates to address client-reported concerns effectively.

- Optimized workflows and improved code reliability by implementing structured processes for deployment readiness and bug tracking.

- Participated in sprint planning and retrospectives, contributing to process improvements and aligning team efforts with business goals.

Software Developer

                                                              May 2024 - Sept 2024
Nippon Data System
Project - e-MBD (https://dbtmbdodisha.nic.in)

- Implemented frontend functionality using Angular, enhancing user interactivity and engagement.

- Collaborated with UI/UX designers and backend developers to translate design mockups and requirements into functional code.

- Played a key role in developing and optimizing a Payment Portal, ensuring secure transactions, user-friendly interfaces, and seamless integration with backend systems.

- Contributed to development sprints, met project targets, and delivered high-quality products on time.

- Conducted code reviews and implemented best practices for a maintainable and scalable codebase.

WORK EXPERIENCE

Software Developer

Akal Infotech   Jan 2022 - Nov 2022

Project - Odisha Agro (https://odishaagro.nic.in)

- Utilized Angular 12 framework to craft responsive and intuitive frontend and backend interfaces, enhancing user experience and engagement.

- Led the design process to create visually beautiful and user-friendly interfaces, with a focus on responsiveness and accessibility to meet the different demands of the users.

- Collaborated with stakeholders, backend developers, and designers to align frontend development efforts with project goals, ensuring timely delivery and adherence to quality standards.

- Ensured code integrity by conducting reviews and adhering to industry best practices for scalable solutions.

Software Developer

SISL   Dec 2020 - Dec 2021

Project - Service Plus Odisha (https://serviceonline.gov.in/

- Spearheaded the development of a user-friendly CMS web application tailored for the Government of Odisha, ensuring seamless navigation and accessibility for diverse users.

- Designed and implemented intuitive user interfaces, prioritizing user experience and accessibility standards to facilitate efficient browsing and interaction with various government documents.

- Collaborated closely with cross-functional teams including backend developers, designers, and stakeholders to ensure alignment with project goals, timelines, and specifications, fostering a cohesive development environment.

- Conducted rigorous testing procedures to identify and resolve bugs, ensuring the reliability, security, and performance of the CMS web application, and adhering to government regulations and standards.
